## **Rockwell Part**

Rockwell Parts - AxleTech International is a leading supplier in the world of specialty vehicle drive-train systems and parts together with off highway vehicles. The company prides itself on being its customers' chosen supplier. AxleTech strives to meet and exceed their customers' expectations for service, technology, delivery and quality. They believe in working in an environment which supports the utmost integrity with empowered collaboration, along with a persistent pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious business and providing a safe surroundings for their staff to work in. Additionally, they have applied a lot of programs within the corporation in order to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whichever questions or comments, because they are happy to promote and share this policy with a greater knowledge of their efforts. They are really committed to preserving and improving the natural world. AxleTech has an EHS program which not just protects the natural world but which also actively protects their neighbors and workers too.

AxleTech specializes in the designing and manufacture of planetary axles used for both military and commercial applications, that may include anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider as well. AxleTech specifically designs axles to meet certain application demands. They have over 1000 various axle specs in their existing offering. With over one hundred years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The company is well known in several commercial and military applications. They provide complete axle assemblies for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have further details that can be seen in the "ISAS" product collection.
