

## Meritor Part

Meritor Parts - The Meritor Company is a premier international dealer built upon 100 years of tradition of service and quality. Meritor focuses on integrated systems together with different modules and parts to the original machinery makers and aftermarket equipment within the industrial and transportation trades.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than 11,200 individuals, Meritor promotes collaboration and innovation among a team of experienced professionals.

By just employing future focused employees, Meritor strongly believes these top-caliber workers will be able to quickly adapt to changing environments and demonstrate the commitment and performance required in order to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers all their workers different possibilities for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which consist of axles, drivelines, braking and suspension systems utilized for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of their international engineering workers.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all around the globe in 19 nations and in 5 different continents.

They have their supplier network that is specifically situated in order to support the development of the business. Every regional team has globally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also included transactional Green Belts who make use of Six Sigma tools to business processes and apply lean methods.
