

## Advance-Nilfisk Part

Advance-Nilfisk Parts - Think about how long and tedious it will be to clean-up after a party, with no assistance from machines. Not too long ago, the dirt from upholstery and carpets had to be beat out of them by hand; brooms, brushes and cleaning cloths were the leading cleaning products at the time.

P.A. Fisker, the man who established Nilfisk-Advance, was an electrical engineer who really loved working with electrical motors. Founding the business in the year 1906, he started to produce motors in order to drive coffee grinders, drills, fans and machine tools. Mr. Fisker's vision from the start was to have a global business marketing goods worldwide.

The Nilfisk C1 was a remarkable breakthrough for the cleaning business. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and could be operated by one individual. This invention came in a time where many cleaning machines were huge and needed 4 or more operators, thus, the Nilfisk C1 transformed everything and evolved the way we clean forever. The brain behind these first cleaning equipment remains unparalleled. Cleaning machines offer an excellent solution to an existing crisis; things get dirty and need to be cleaned on a regular basis, without too much effort.

Gradually, the company Nilfisk-Advance developed all through the years. During the early 1980's the business grew more rapidly when the company became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance ahead within the industry, aspiring to be an active international player in producing professional cleaning machines. Nilfisk-Advance is presently located in every part of the world by gradually acquiring numerous smaller companies to be able to grow their product selection and presence in new markets. They are proud to offer a range of cleaning solutions to meet each need.
