

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those operating in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive brands of lift trucks, with components covering more than 120,000 specific parts for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very impressive worldwide support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark's continual effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the globally approved quality standard ISO 9001 for all of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a dominant industry position.

Clark has selected the system of "Lean Production" at all of its assembly facilities for the reason that this system is particularly economical and permits minimal use of resources. Developed to ensure maximum efficiency, this system is designed to find and acknowledge the most efficient methods for manufacturing plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the efficiency and excellence of their products while minimizing costs. The new value engineering agenda combines progressive product growth and delivers superior client support and service within the industry.
